Legend

- Project Study Area
- Interconnector Study Area
- 120m Zone of Investigation
- Proposed Project Components
 - Proposed Turbine Location
 - Turbine Blade Length
 - Tap-in Location
 - Transformer Substation Location
 - Junction Box
 - Proposed Culvert
 - Preferred Transmission Line Route
 - Alternate Transmission Line Route

- Temporary Laydown Area
- Collector Lines – Underground or Overhead
- Fibre Optic Line
- Potential Access Road
- Access Road 20m Construction Area
- Potential Construction Laydown Area
- Transformer Substation
- Existing Features
 - Road
 - Expressway / Highway
 - Unopened Road Allowance
 - Active Railway
 - Abandoned Railway

- Existing Transmission Line
- Pipeline
- Topographic Contour (mAMSL)
- Watercourse (MNR)
- Waterbody (Stantec)
- Property Boundary
- Municipality Lower Tier
- Niagara Escarpment Plan Area (NEC)
- Greenbelt Natural Heritage System
- Conservation Areas (NPCA)
- Greenbelt Plan Area (MMAH)

- Significant Wildlife Habitat
 - Snake Hibernacula
 - Snake Hibernacula 30m Buffer
 - Raptor Wintering Areas
 - Deer Congregation Areas (MNR) (Generalized)
 - Wetland Amphibian Breeding Habitat
 - Woodland Amphibian Breeding Habitat
 - Other Rare Vegetation Community
 - Landbird Migratory Stopover
 - Turtle Nesting Habitat/ Snapping Turtle Habitat
 - Turtle Habitat 30m Buffer
 - Turtle Wintering Area

- Significant Natural Features
 - Woodland Communities
 - Wetland Communities
 - ANSI, Earth Science, Provincially Significant (MNR)
 - ANSI, Life Science, Provincially Significant (MNR)
- Cultural Heritage Features
 - Protected Property
 - Cultural Heritage Resource
- Landfill - Active (MOE)
- Landfill - Closed (MOE)
- Petroleum Well (OGSR) ⁴
- Water Well (MOE) ⁵

- Non-participating Receptors ⁵
 - Occupied
 - Vacant
 - Participating Noise Receptors ⁵
 - Occupied
 - Vacant
- ### Notes
- Coordinate System: NAD 1983 UTM Zone 17N).
 - Base features produced under license with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2011.
 - Orthom imagery source: First Base Solutions, Date Spring 2010.
 - Petroleum Well source: © Ontario Oil, Gas and Salt Resource Library, 2010.
 - MOE Water well locations are approximate and have been positioned based on published UTM coordinates © Queen's Printer for Ontario, 2012.
 - Noise receptors are identified within 1500m of any wind turbine.
